

# Return on Investment:

# EVC-30

Hybrid vehicle battery reconditioning & cell balancing

## ROI breakdown per unit of EVC-30:

Assume...

Operating days per month: 21

**21 x 30 modules = 630 modules**

Module return rate: 65%

**630 modules x 0.65 = 409 modules**

**409 modules/28 = 14.6 Toyota Prius packs**

Margin: \$700 per pack

**14.6 packs x \$700 = \$10,220 per month**

EVC-30 price: \$36,000

**\$29,999/\$10,220 = 3 months**

*EVC-30 battery reconditioning unit connected in parallel to a 28-module Prius pack. One parallel connection does the job.*

**A full-time EVC-30 is fully paid off in 3 months!**

Lease and financing options available. Spread payments out over 12 months.
